Subject: I am against litigation

In my state of N. C. we have approximately 1,000.00, motivated, great citizens who work for Microsoft.. N. C. has been blessed with a fine company , like Microsoft, locating in this state.

I own Microsoft software, as does my husband and my daughter and we are very pleased with the quality and the price. We buy Microsoft, we have a choice. and we would not change at present. In my husbands profession he has used sun, oracle and many other software venders and finds them all inferior to Microsoft. These companies should go to work and developed wonderful software that would be competitive and I would try their product again.. I am sure there will be software beyond Microsoft and some young inventor is probably working on it right now, not expecting to find it in a court of law. I do not feel I have been overcharged for my soft ware, and I have not been in anyway persuaded to buy Microsoft, it was my freedom of choice.
